PROFESSIONAL SUMMARY

Motivated tech enthusiast specializing in Cloud Computing, with hands-on experience in frontend development and scalable web applications. Skilled in creating responsive user interfaces and contributing to real-world projects including QuickRide, Voice Agent, and FindMyStuff. Strong foundation in cloud deployment, containerization, and database integration, with a passion for building intuitive and efficient digital solutions.

SKILLS

Languages: C, HTML, CSS, Java, SQL

Frameworks/Tools: Git, Next.js, Tailwind CSS, MYSQL

Cloud Services: AWS (S3, Lambda, EC2)

WORK EXPERIENCE

Sentienta Quality AI

June 2025 – July 2025

Frontend Intern

- Designed and developed responsive UI components using **Next.js, Tailwind CSS, and JavaScript**, ensuring accessibility, scalability, and high-quality user experience.
- Integrated **FastAPI backend services** with secure JWT authentication to deliver real-time AI-powered content, dashboards, and dynamic data visualizations.
- Collaborated with AI and backend teams to define **robust request/response schemas using Pydantic**, ensuring seamless and reliable frontend-backend integration.

Phemesoft-IBM

June 2025 – July 2025

SDE Intern

- Assisted in backend development using **FastAPI and Python**, contributing to enterprise-grade API design, microservices, and performance enhancements in an agile environment.
- Supported **AWS cloud infrastructure setup and deployment** using EC2, Lambda, SageMaker, and S3, while participating in CI/CD workflows for efficient and scalable development.

ARJ Foundation

June 2023 – July 2023

Social Intern

- Designed engaging posters and slogans for social awareness campaigns and supported on-ground initiatives.
- Managed participant records in Excel to ensure accurate, organized program execution.

EDUCATION

Bachelor of Technology in Computer Science Engineering — CCVT
UPES, Dehradun, Uttarakhand

2022-Present

Intermediate (12th Grade)
Saraswati Academy School, Haldwani, Uttarakhand

2021-2022

Matriculation (10th Grade)
Saraswati Academy School, Haldwani, Uttarakhand

2019-2020

PROJECTS

FindMyStuff– Lost and Found Portal

- Developed a full-stack web application using React (Next.js), Node.js, and MongoDB for reporting and retrieving lost items.
- Integrated search and filter features with intelligent similarity detection to match lost and found posts.
- Deployed backend APIs with Express.js and documented them using OpenAPI 3.0 for scalability and maintainability.

QuickRide – Rental Vehicle Booking Platform

- Developed a responsive UI using HTML, CSS, and JavaScript for seamless booking across devices.
- Integrated MySQL database for managing users, vehicles, and real-time booking data.
- Implemented user authentication and dynamic pricing logic based on distance and vehicle type.

Voice Agent MVP – Web-Based Voice Assistant

- Built a voice-controlled interface using the Web Speech API for speech recognition and TTS.
- Deployed on Netlify with cross-device compatibility and real-time command processing.
- Enabled voice-based task management through an interactive and accessible UI.
