PROFESSIONAL SUMMARY

Results-driven professional with hands-on experience building full-stack web applications using React, Next.js, SQL, and AWS. Experienced in designing REST APIs, integrating databases, and developing scalable applications through internships and personal projects. Strong foundation in object-oriented programming, data structures, algorithms, and software engineering principles.

SKILLS

Languages: HTML, CSS, Java, JavaScript, SQL

Frameworks: React, Next.js, Tailwind CSS

Databases: MySQL

Cloud & Tools: AWS (S3, Lambda, EC2), GitHub, Figma

WORK EXPERIENCE

Sentienta Quality AI

June 2025 – July 2025

Frontend Intern

- Developed responsive and reusable frontend components using Next.js, React, Tailwind CSS, and JavaScript, ensuring responsive user experiences across desktop and mobile devices.
- Integrated FastAPI REST APIs using JWT authentication to enable secure access to AI-generated dashboards and real-time application data.
- Collaborated with backend and AI engineers to define API contracts, validate request/response schemas, and ensure reliable frontend-backend communication.

Phemesoft-IBM

June 2025 – July 2025

SDE Intern

- Developed backend services using FastAPI and Python, contributing to REST API development and microservices.
- Supported AWS cloud infrastructure setup and deployment using EC2, Lambda, SageMaker, and S3, while participating in CI/CD workflows for efficient and scalable development.
- Participated in API integration, cloud deployment, and software maintenance activities to improve application scalability.

ARJ Foundation

June 2023 – July 2023

Social Intern

- Designed engaging posters and slogans for social awareness campaigns and supported on-ground initiatives.
- Managed participant records in Excel to ensure accurate, organized program execution.

EDUCATION

Bachelor of Technology in Computer Science Engineering- CCVT
UPES, Dehradun, Uttarakhand

2022-2026

Intermediate (12th Grade)
Saraswati Academy School, Haldwani, Uttarakhand

2021-2022

Matriculation (10th Grade)
Saraswati Academy School, Haldwani, Uttarakhand

2019-2020

PROJECTS

QuickRide – Rental Vehicle Booking Platform

- Developed a full-stack vehicle rental platform using React, FastAPI, and MySQL with secure user authentication.
- Built RESTful APIs for vehicle management, bookings, and CRUD operations using FastAPI and SQLAlchemy.
- Designed a responsive interface with real-time vehicle availability and seamless booking functionality.

Voice Agent MVP – Web-Based Voice Assistant

- Built a voice-controlled web application using the Web Speech API for speech recognition and text-to-speech (TTS).
- Developed a responsive interface with real-time voice command processing and cross-device compatibility.
- Implemented voice-based task management through an interactive and accessible user interface.

FindMyStuff– Lost and Found Portal

- Developed a full-stack lost-and-found platform using Next.js, Node.js, Express.js, and MongoDB.
- Implemented search, filtering, and similarity-based matching for efficient item discovery.
- Designed REST APIs and documented them using OpenAPI 3.0 for maintainability.
